

CAMBO

EDUCATIONAL PRICING BROCHURE

Where Tradition Meets Vision

Cambo BV was founded in The Netherlands in 1946 and has the distinction of being the first studio camera manufacturer to produce an all-metal large format camera. Based in the town of Kampen in the East of the Netherlands, Cambo has since built a reputation for high quality, precision engineered cameras, stands and other studio equipment.

Today, Cambo is based in a modern 2,000 sq m facility equipped with the latest computer controlled design and machine tools, ensuring production to the highest standards.

Emphasis on design innovation ensures that the Cambo range of High-End View Cameras continues to provide for differing needs across the marketplace, from the entry level, ideal for the budget conscious student or serious amateur, to the sophistication of the "Ultima System" and the ultra-precision of the "WideRS System" which caters for the precise needs of the digital photographer, in studio and on location.

Win An Actus - Titanium Starter Kit

The Cambo Actus Mini is a view camera system designed for DSLR and mirrorless cameras. It combines traditional view camera techniques with the latest capture technology.

Using view camera movements, the photographer will be able to be more versatile, more creative, and will be producing more professional results than before. Size matters, and the Cambo Actus has been designed to give maximum functionality with minimal dimensions to support portability with ease.

Learn more about the power and versatility of the Actus later in this booklet.

The winner will receive:

- 1 Actus Titanium Camera w/ Standard Bellows
- 1 Camera Bayonet of Choice (Canon EF, Canon R, Nikon F, Sony E, M4/3, Pentax K, or Olympus M4/3)
- 1 Titanium Lens Board for Copal-0

Valued at \$2300!

Scan this QR Code with your phone or visit Cambousa.com/spe2019 for your chance to win the CAMBO Actus Titanium Camera! This promotion is valid until March 11, 2019.

Test a Cambo Stand in Your Studio For a Year

Allow us to prove why a Cambo studio stand is the perfect addition to your student's workflow.

This stand can be delivered to your studio this summer, if you choose to participate in our try before you buy program!

What happens if you fall in love with the stand and don't want to give it back at the end of the 2019-2020 school year? Don't worry... we have you covered! You will be able to purchase this stand at a special CAMBO price!

Later in this issue, Photographer Jordan Bush shares why Cambo stands are a must have in every studio setup. The stability and versatility of the stand allows the photographer to get the most out of their workflow while minimizing accidental movements.

Terms and conditions apply. Contact CAMBO USA for more information. Stands are limited and are first come first served.

A View Camera for Today's Mirrorless Bodies

The Cambo Actus series of cameras combines traditional view camera techniques with the latest capture technology. Using view camera movements, the photographer is able to be more versatile, be more creative, and produce more professional results much faster than before.

The Actus system allows for expandability by the use of over 15 different lens panels, four different bellows, and three different monorail combinations. Pick the configuration best suited for your needs.

Just connect your camera of choice and the Cambo Actus functions as a tilt-shift and swing adapter with view camera movements. Because size matters, the Actus system has been designed to give maximum functionality with minimal dimensions to support portability .

\$1580 Reg \$1975

Actus Mini

Why Cambo Actus?

- A fully working view camera with all movements
- Less than the cost of a single T/S lens
- Works with your existing lenses
- Small size makes it great for studio or field work

\$2239 Reg \$2799

Actus DB2

The Actus DB allows for digital back users to get access to the portability of the Actus mini, with the quality of a digital back. In-studio, or on location, the Actus DB goes where you need it to be.

\$2100 Reg \$2625

Actus G

- Designed to work with larger medium format mirrorless cameras (Fuji GFX and Hasselblad X1D, Leica S, Nikon Z)
- Easily switch camera mounts to smaller DSLRs and Mirrorless cameras with adaptor
- Can also be used with digital backs with optional adaptor

Special Design for Educators

Actus-EDU Advantages

- Swap between preassembled camera bayonets quickly without the need to remove screws
- Switch between Student/Educator camera bodies at a fraction of the cost and time compared to having dedicated Actus units for each camera manufacturer.
- Locking lever secures bayonet firmly to rear standard

Contact Cambo USA for more information at cambousa.com.

\$1079 - \$5116 Reg \$1349 - \$6395

Cambo Actar Lenses

The actar series of lenses provides the best balance of price to performance. They are designed to work with the widest range of cameras. Their large image circles allow for movements with both 35mm full frame and larger sensors .

- Large image circle
- Widest camera compatibility
- Affordably priced high quality optics

Stands

Studio Stands

Cambo's studio stand options are designed to present a firm posture. These stands provide a more sturdy operating environment than a tripod. The mono stands will provide easy movement when needed and offer a firm hold when ready to shoot. Sized from 7 feet to 12 feet and anything in between, there is a Cambo stand that can meet your needs.

Monotands

Our entry level Monostand configurations are built out of the same high quality materials as the other stands, but their significantly lower cost makes them easily affordable on practically any budget.

\$1175 Reg \$1436

7ft Stand w/Y-Base

\$2274 Reg \$1819

Mono2/ MBX-0

9ft Stand w/Y-Base

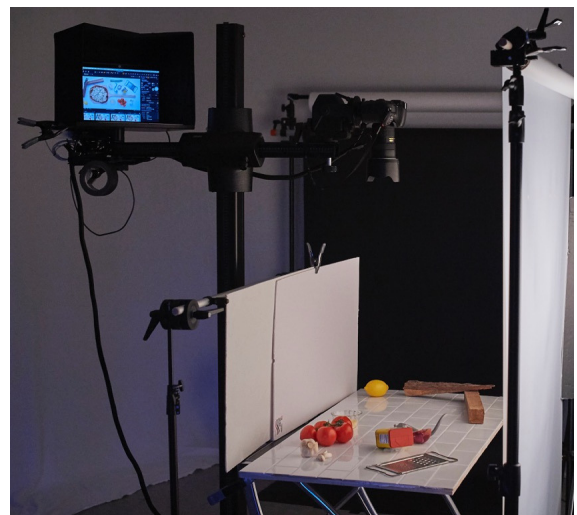

Behind the Scenes with photographer, Jordan Bush

We asked Jordan why efficiency matters, and why a studio stand...

"The Cambo stand helps me keep my focus on the work at hand and away from managing gear. The more focused I am on the subject, and not the equipment used to create it, the better the overall results. It replaces stress with time-saving control, and with improved concentration, I spend less time in post-production fixing issues that were resolved in camera producing superior quality. I'm enabled to make swift and fine composition changes to try something different, taking a solid image from good to great."

Purchasing Under Cambo Educational Pricing Program

Thank you for your interest in Cambo products. We offer a special educational discount only to students and educators currently enrolled in full-time college level degree program.

To qualify for these prices, we ask that you provide the following documents with this order:

- Copy of your current Student/ Faculty ID or
- Copy of your current class schedule
- This completed purchase order
- Cambo USA order sheet

Educational Institutions may provide a school purchase order as qualification.

Since participation in this program is a privilege, we reserve the ability to refuse an order for any reason, or request additional enrollment information/ verification. No order will be accepted without the three documents requested above, even if this information was provided with a previous order.

Please note that this equipment will be shipped pre-registered to the student making the purchase and cannot be resold for 24 months.

Select the equipment you would like to purchase and present the order with the documents indicated above to your nearest authorized Cambo dealer.

A list of our dealers can be found at: www.cambousa.com/dealers

If you cannot locate a dealer in your area, you may also order by emailing these documents to:
Info@cambousa.com / Subject Headline: Educational Order.

Upon receipt of your order form, we will approve, process and ship your order within three business days pending product ability.
