

2018 EDITION

EDUCATIONAL PRICING BROCHURE

## WHERE TRADITION MEETS VISION...

Cambo BV was founded in The Netherlands in 1946 and has the distinction of being the first studio camera manufacturer to produce an all-metal large format camera. Based in the town of Kampen in the East of the Netherlands, Cambo has since built a reputation for high quality, precision engineered cameras, stands and other studio equipment.

Today, Cambo is based in a modern 2,000 sq m facility equipped with the latest computer controlled design and machine tools, ensuring production to the highest standards.

Emphasis on design innovation ensures that the Cambo range of High-End View Cameras continues to provide for differing needs across the marketplace, from the entry level, ideal for the budget conscious student or serious amateur, to the sophistication of the "Ultima System" and the ultra-precision of the "WideRS System" which caters for the precise needs of the digital photographer, in studio and on location.

The Cambo range of cameras is complemented by a range of camera support stands and other studio accessories to suit all needs, including dedicated Reproduction cameras and Reproduction stands.

Cambo has since expanded their product range into the market for Video Supports including Video Booms, a Track and Dolly System and an extended HDSLR Support Rig system for the demanding enthusiast as well as professional video and broadcast companies.

**\$1439** Reg \$1799

## SC- 2

The SC-2 Basic is Cambo's classic view camera. For ease of maintenance, these cameras are great tools for large format photography

**\$3868** Reg \$5699

## Cambo Ultima 23

**\$3989** Reg \$5699

## Cambo Ultima 45

The Ultima 45 is Cambo's sophisticated 4x5" studio view camera, designed for high precision. Specifically designed for digital and film use with fine gearing on all movements, including lateral shift, rise and fall, swings, tilts and fine focusing

# Actus

The Cambo Actus series of cameras combines traditional view camera techniques with the latest capture technology. Using view camera movements the photographer is able to be more versatile, be more creative and get more professional results much faster than before.

The Actus system allows for expandability by the use of 11 different lens panels, four different bellows, and three different monorail combinations. Pick the configuration best suited for your needs.

Just connect your camera of choice and the Cambo Actus functions as a tilt-shift and swing adapter with view camera movements. Because size matters, the Actus system has been designed to give maximum functionality with minimal dimensions to support portability at ease.

**\$1520** Reg \$1900

## Actus EDU

Newly designed with educators in mind. The Actus EDU features a quick swapping rear standard to allow for students and educators to quickly demo and use the Actus with their own camera system.

## Actus-EDU Advantages

- Swap between preassembled camera bayonets quickly without the need to remove screws
- Switch between Student/Educator camera bodies at a fraction of the cost and time compared to having dedicated Actus units for each camera manufacturer.
- Locking lever secures bayonet firmly to rear standard

**\$2239** Reg \$2799

## Actus DB2

The Actus DB allows for digital back users to get access to the portability of the Actus mini, with the quality of a digital back. In-studio, or on location, the Actus DB goes where you need it to be.

**\$2100** Reg \$2625

### Actus G

Built from the knowledge learned from the Actus-EDU. The Actus G series is designed to work not only with larger medium format mirrorless cameras (Fuji GFX and Hasselblad X1D), but smaller DSLRs and Mirrorless cameras as well.

**\$4460** Reg \$5575

### Actus XL 35

Designed for in-studio usage, the Actus XL takes the movements and legacy of the Cambo Ultima and builds upon the mounting system of the Actus mini, giving the most functionality and most compatibility across the Actus family of cameras.

**\$436** Reg \$545

### ACDB-989 SWL Adaptor

New for 2018 - Cambo introduces the ACDB-989 SLW adaptor to bring Digital Back compatibility to the Actus-G and Actus EDU series of cameras. The Actus system allows for expandability by the use of 11 different lens panels, four different bellows, and three different monorail combinations. Pick the configuration best suited for your needs.

### Lenses

The Actar series of lenses are designed to be a single part solution for users. Pre-mounted and optimized for Actus users, these 5 lenses are a great choice for photographers who need the most value for their investment, while still maintaining very high optical quality.

(For pricing on other accessories please contact your dealer or Cambo USA at [Info@Cambousa.com](mailto:Info@Cambousa.com))

## Monostands

Cambo's studio stand options are designed to present a firm posture. These stand options provide a more sturdy operating environment than a tripod. The mono stands will provide easy movement when needed and offer a firm hold when ready to shoot.

All monostand configurations are built out of the same high quality materials as the other stands, but their significantly lower cost makes them easily affordable on practically any budget.

**\$2879** Reg \$3599

## WRS- 1600

The newly designed WRS-1600 allows for the rotation between landscape and portrait orientations, without the need to remove the attached digital back. Compatible with the complete lineup of WRS lens panels, the WRS-1600 lends itself to the landscape or architectural photographer who wants the most flexibility in a size that is easy to travel with.

# How To Place Your Order

Thanks you for your interest in Cambo products. We offer a special educational discount only to students and educators currently enrolled in full-time college level degree program.

To qualify for these prices, we ask that you provide the following documents with this order:

- Copy of your current Student/ Faculty ID or
- Copy of your current class schedule
- This completed purchase order
- Cambo USA order sheet

Educational Institutions may provide a school purchase order as qualification.

Since participation in this program is a privilege, we reserve the ability to refuse an order for any reason, or request additional enrollment information/ verification. No order will be accepted without the three documents requested above, even if this information was provided with a previous order.

Please note that this equipment will be shipped pre-registered to the student making the purchase and cannot be resold for 24 months.

## Purchasing Under Cambo Educational Pricing Program

Select the equipment you would like to purchase and present the order with the documents indicated above to your nearest authorized Cambo dealer.

A list of our dealers can be found at: [www.cambousa.com/dealers](http://www.cambousa.com/dealers)

If you cannot locate a dealer in your area, you may also order by emailing these documents to: [Info@cambousa.com](mailto:Info@cambousa.com) / **Subject Headline: Educational Order.**

Upon receipt of your order form, we will approve, process and ship your order within three business days pending product ability.
